

## PREFACE.

The object in issuing the *Bulletin* is to secure a quick publication of short notes and preliminary reports on seismological subjects, more especially such contributions as may be of use in connection with the works of the International Seismological Association. The *Publications*, which contain more lengthy papers, will be issued from time to time, as heretofore.

Jan. 1907.

B. MANO, *President.*

F. OMORI, *General Secretary.*

Imperial Earthquake Investigation Committee,  
Tokyo, Japan.
