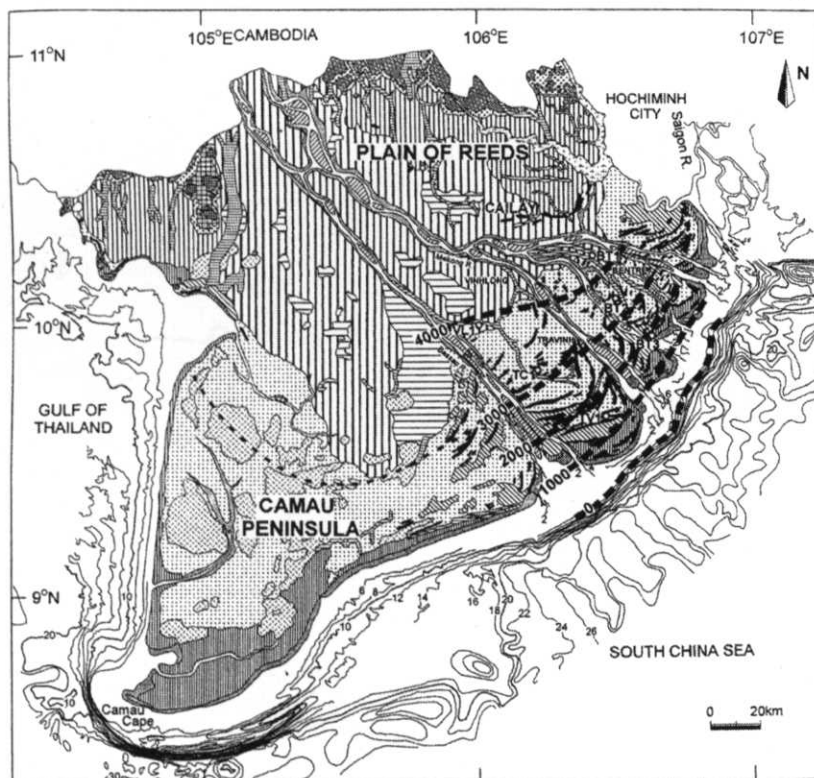

Fig. 4. Paleogeographic map of the Mekong River Delta for the last 3 kyr. The topographic map of the Mekong River Delta and the bathymetric map are based on Nguyen et al. (2000) and the Topographic Map of Seabed, 1:1,000,000 (1983) respectively. The light-dashed line connecting with the heavy-dashed 3-ka contour of the paleo-offshore break was used for the calculations of the sediment volume of the deltaic sediments for the last 3 kyr.
