

20. 臺灣羅東附近一等水準測量檢測成果報告

最近陸地測量部より臺灣羅東附近一等水準檢測變動圖を寄贈されたり。同圖は地殻變動事實を示す一例として價値あるものと認め同部の承認を得て此處に轉載する事とせり。

地震研究所長

20. Change in the Heights of the Bench Marks along the Route Passing Ratô, Taiwan (Formosa).

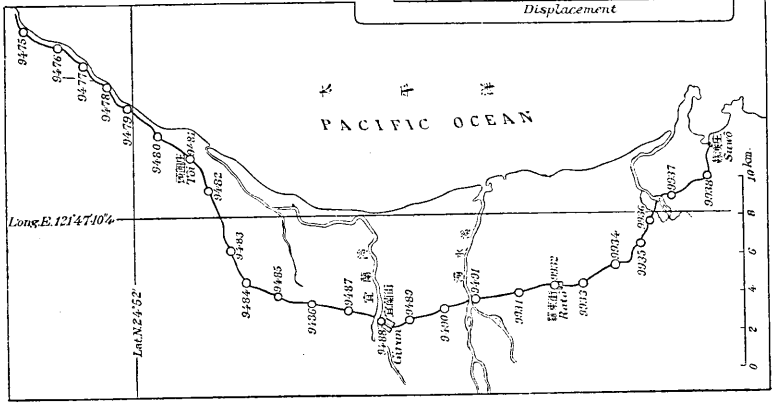

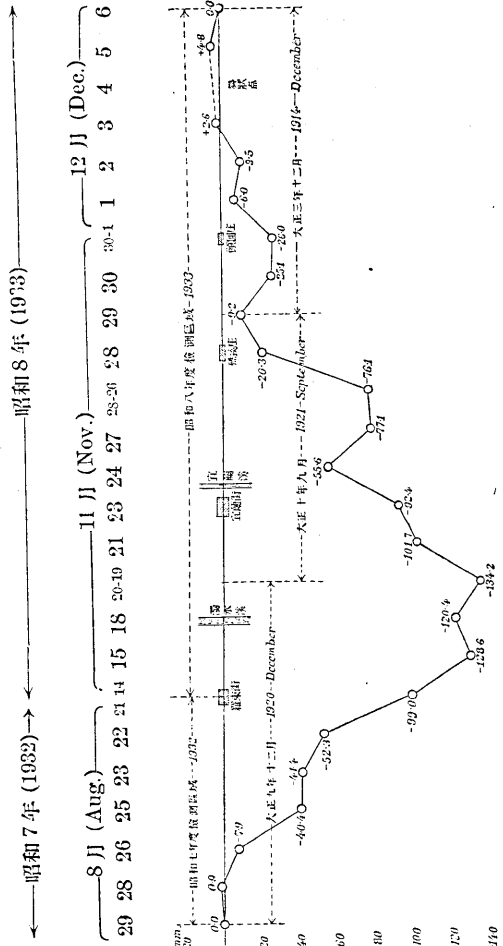

The line of precise levelling passing Ratô, Taiwan, was relevelled out in 1932-1933 by the Military Land Survey.

The changes in the heights of the bench-marks as revealed by the comparison of the result of the above-mentioned measurement with that of the earlier one are shown in the accompanying figure, through the permission of the Survey.

The Director.
