- Art. 1.**—On the inversion of cane sugar. By Y. OSAKA.—Publ. September 18th, 1908.
- Art. 2.**—The complex ferri-malonates. By M. MATSUI.—Publ. September 18th, 1908.
- Art. 3.**—On the constitution of the so-called elæomargaric acid. By T. KAMETAKA.—September 18th, 1908.
- Art. 4.**—Notes on Japanese vegetable oils. By T. KAMETAKA.—Publ. September 18th, 1908.
- Art. 5.**—On the viscosity of dilute alcoholic solutions. By T. HIRATA.—Publ. September 18th, 1908.
- Art. 6.**—Ueber den Hauptbestandteil des japanischen Lacks. By R. MAJIMA and S. CHO.—Publ. September 18th, 1908.
- Art. 7.**—Ueber die Anomalie der starken einwertigen Elektrolyte. By M. KATAYAMA.—Publ. September 18th, 1908.
- Art. 8.**—Coagulation of colloidal aluminium hydroxide by electrolytes. By S. KAWAMURA.—Publ. September 18th, 1908.
- Art. 9.**—On the partition of silver between zinc and lead. By G. N. POTDAR.—Publ. September 18th, 1908.
- Art. 10.**—Studies on the chemical theory of solutions. I. By K. IKEDA.—Publ. September 18th, 1908.
- Art. 11.**—The fusion curves of the system naphthalene-phenol. (*With 1 plate*). By T. YAMAMOTO.—Publ. September 18th, 1908.
- Art. 12.**—On the fusion surfaces of the system naphthalene-chlorobenzene-phenol and the molecular association of phenol. (*With 2 plates*). By H. HIROBE.—Publ. Sept. 18th, 1908.
- Art. 13.**—A simple method of preparing the imides of the aromatic sulphonic acids. By T. HAGA.—Publ. September 18th, 1908.
- Art. 14.**—The oximes and imides of benzenedisulphonic acids. By T. SUZUKI.—Publ. September 18th, 1908.
- Art. 15.**—Preliminary note on a new element in thorianite. By M. OGAWA.—Publ. September 18th, 1908.
- Art. 16.**—Preliminary note on a new element allied to molybdenum. By M. OGAWA.—Publ. September 18th, 1908.
- Art. 17.**—Formation of γ -oxycarbostyryl from *o*-nitrobenzoylacetic acid. By K. MATSUBARA.—Publ. September 18th, 1908.
- Art. 18.**—Molecular rearrangement of *N*-benzylbenzaldoxime. By M. KUHARA.—Publ. September 18th, 1908.
- Art. 19.**—Flora montana formosæ. (*With 41 plates*). By B. HAYATA.—Publ. July 23rd, 1908.
