

Eratta for article

Nakajima, T., A. Higurashi, K. Kawamoto, and J. E. Penner, 2001: A possible correlation between satellite-derived cloud and aerosol microphysical parameters. *Geophys. Res. Lett.*, **28**, 1171-1174.

Dear Colleagues,

I am sorry that the above article has many typographical errors due to unexpected double mistakes in the publishing process. We are happy if you are patient enough to read the article taking into account the following corrections.

Teruyuki Nakajima
June 15, 2001

Corrections

- 7th line from the bottom of the introduction: ' 2 W/m^2 ' \rightarrow ' -2 W/m^2 '
- there are several places for the correction: ' ngstr m ' \rightarrow ' \AA ngstr\AA m '
in 6th line of Section 2; 2nd line after Eq.(1); 4th line from the top of page 1172
- the line after Eq.(1): ' 0.5 m ' \rightarrow ' $0.5 \mu\text{m}$ '
- the last line of paragraph after Eq.(3): $\Delta N_a/N_a \approx \Delta(\tau_a \alpha)/(\tau_a \alpha)$
- 3rd line of the paragraph above Fig. 1: ' $0.5i \times 0.5i$ ' \rightarrow ' $0.5^\circ \times 0.5^\circ$ '
- The caption of Fig. 2: ' $r_e (\text{ m})$ ' \rightarrow ' $r_e (\mu\text{m})$ '
- 4th line above Eq.(4): ' $10^{7.8} \dagger N_a \dagger 10^{8.5}$ ' \rightarrow ' $10^{7.8} \leq N_a \leq 10^{8.5}$ '
- Eq.(4) :
$$r_e \approx a_r + b_r \log_{10} N_a; \tau_a \approx a_\tau + b_\tau \log_{10} N_a;$$
$$\log_{10} N_e \approx a_N + b_N \log_{10} N_a \text{ for } 7.8 \leq \log_{10} N_a \leq 8.5, \quad (4)$$

with $a_r = 34.0 \pm 4.3$ and $b_r = -2.65 \pm 0.50$; $a_\tau = -21.4 \pm 9.4$ and $b_\tau = 3.30 \pm 1.32$; $a_N = 1.80 \pm 0.43$ and $b_N = 0.50 \pm 0.07$.
- Eq.(5): $\Delta \text{crf} = \Delta \text{CRF}/n \approx b_R \Delta \log_{10} N_a$
- 2nd line after Eq.(5): $b_R = -30 \pm 8 \text{ W/m}^2$
- 4th line after Eq.(5): $\Delta \text{CRF} = -0.7 \pm 0.2 \text{ Wm}^{-2}$
